

## How to make natural bird feeders

### What you will need

- Bird seed mix
- Suet / lard / gelatine
- A pinecone / recycled yogurt pot / cookie cutter
- Bowl
- Pen
- String

### Instructions

1. Mix your suet / lard / gelatine with some seed mix in a bowl.
2. Press the mixture into the gaps of the pinecone, or into your recycled yogurt pot or cookie cutter.
3. If you are using the yogurt pot or cookie cutter, make a hole in the mixture with the end of a pen and leave the mixture in the fridge overnight to solidify.
4. Tie your string through the hole in the mixture or around the stem/seeds of the pinecone.
5. Hang your creation in your garden and watch the birds flock to your feeders!
